

# UNIVERSAL OXYGEN SENSORS

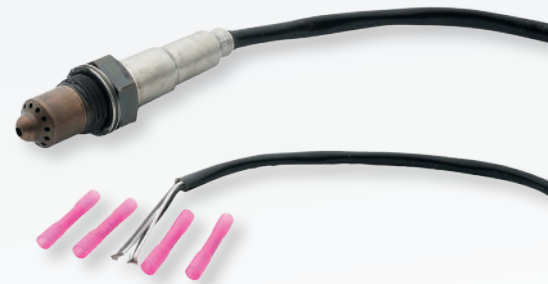

In addition to our range of specific oxygen sensors, discover our universal lambda sensors: an economical and versatile solution.

Why would you choose them?

- **Extended compatibility:** designed to be compatible with a wide range of vehicles and makes, eliminating the need to search for a specific sensor for each model.
- **Increased availability:** easier to find than specific OEM oxygen sensors, especially for older and, or rare vehicles.
- **Lower cost:** less expensive than OEM sensors, making them a cost-effective solution for repairs or maintenance.
- **Simplified storage:** it is more practical to stock a few universal sensors rather than a lot of specific references.

SINGLE  
COMPETITIVE  
PRICE:  
19,30€

We provide you with: **assembly instructions (including wire colour matches), crossing with our specific references and those of our competitors.**
